PENS! PENS!!

GET THE BEST!

THE BEST IS THE CHEAPEST!

C. BARNARD'S

Celebrated "Corrugated Metal" Pens

ARE FOR SALE

AT LEWIS BOOK STORE,

Agent for the county.

PRICES—25 cts. per dozen or $2 per gross.

THE "CORRUGATED METAL" PENS, made by C. BARNARD, are the best Commercial and School Pens, without exception to any.—They are used by all the principal Banks and Government Departments, Public and Private Schools; also, by the most prominent Commercial Houses throughout the United States and Canada.

But a short time has elapsed since

C. BARNARD'S PENS

have been introduced into the United States, still a marked preference is given them over all others for the following reasons: The "Corrugated Metal" PENS do not corrode; they will not splatter or cut through the thinnest paper; they have an easy gliding motion, a certainty of equally diffusing the ink; softness of point, and great durability.

The following testimonials, selected from numerous others, are respectfully submitted:

I have used the Metallic Pens of Mr. C. Barnard and highly approve of them. C. BARSTOW,
President of St. Nicholas Bank, New York.

We have used the Pens of Mr. Barnard, and find them to be as he represents, and take pleasure in recommending them to the public. WELLS, FARGO & CO.,
A. MULLIGAN, *Cashier.*

C. Barnard's Pens have been tried, and are highly approved in this office. S. G. OGDEN,
Auditor U. S. Custom House, New York.

Having tried the corrugated Pens made by Mr. Barnard, I can recommend them as excellent.
SAMUEL L. BREESE,
Commandant Navy Yard, Brooklyn.

We add ours to above recommendations.
H. B. CROMWELL & CO., New York.

I have no hesitation in saying Barnard's Pens are decidedly the best I have ever used. S. C. HAY,
Agent United States Express Co., New York.

We can confidently recommend Mr. C. Barnard's Anti-Corrosive Pens as the best ever brought under our notice, without exception.
WILKINSON, STETSON & CO.,
Park Place, New York.
T. B. HUGHES, *Cashier.*

We have been using the Pens of Mr. C. Barnard, and take great pleasure in recommending them to the public, as they are an excellent article, and all he represents them to be. A. J. CLINTON,
Secretary Eagle Insurance Co, New York.

Upon trial we have found Mr Barnard's Pens to be excellent. FRED, PROBST & CO., New York.

I would recommend Mr. Barnard's Pens as a superior article to any I have used.
GOUVR. KEMBLE, New York.

We add ours to the above recommendations.
UNDERHILL, HAVILAND & CO., New York.

Of all Pens I have ever used, Mr. Barnard's have given me more satisfaction, and I can recommend them to the public as being entirely anti-corrosive.
F. POIRER, New York.

After six months' constant use of C. Barnard's Anti-Corrosive Pen, we can confidently recommend it as the best metallic pen we have ever used, finding from the above experience that it does not actually corrode.

ROHRER'S PRACTICAL CALCULATOR.

A Book of Plain Rules and Calculations for Business Operations, by Martin M. Rohrer, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.

This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handiest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works in the hands of the teacher in the school room—it facilitates time and insures correctness.

THE WORK TREATS OF THE

Measurement of Land, of Lumber, of Brick and Brick Work, of Stone and Stone work, of grain and grain bins, of coal and coal bins, of wood, of solids, of liquids, of circular, square or irregular vessels, of cisterns and vats, of roofing, of plasterer's, painter's, glazier's, paver's, plumber's, paper hanger's and upholsterers' work. It treats of currency and of foreign and domestic exchange, of the decimal system, of reduction and its extended application to business, of simple and compound interest, and their entire application to business transactions, with the laws and usages governing the same, together with numerous commercial forms—of legal tender, of partial payment on notes, of banking and bank discount, of equation of payment and of partnership accounts, of assessment of taxes, of weights and measures, of square and cubic measure, of the square root and its application to business of surfaces, of excavation, and of many other important practical matters not within the scope of an advertisement to mention.

IT IS JUST THE BOOK FOR THE

Farmer, the merchant, the mechanic, the artizan, or the professional man. It has proven a valuable auxiliary to the lawyer, the justice of the peace, the conveyancer, and real estate broker, to the assessor, the banker, the clerk, to the civil engineer and the surveyor, to the carpenter and bricklayer, to the stonemason and the plasterer, to the paper hanger and upholsterer, to the paver and the tiler, &c., &c.; each and all will find it adapted to their various wants better than any book published.

Our Flag Forever.

"I know of no mode in which a loyal citizen may so well demonstrate his devotion to his country as by sustaining the Flag, the Constitution and the Union, under all circumstances, and UNDER EVERY ADMINISTRATION, REGARDLESS OF PARTY POLITICS, AGAINST ALL ASSAILANTS, AT HOME AND ABROAD."—STEPHEN A. DOUGLAS.

An exhibition was given in the evening by the scholars of Mr. Whipple's Normal School in the basement of the Baptist Church. All who were in attendance seemed to be well pleased with the conduct and performance of the pupils.

FROM NEW ORLEANS.

Arrival of Gen. Banks' Expedition.

Gen. Banks Supersedes Gen. Butler.

Gen. Butler's Farewell Address.

Important Proclamation by Gen. Banks.

NEW YORK, Dec. 28.—The steamship Roanoke has arrived from New Orleans, with dates to the 19th inst. via Havanna on the 22d, with news of importance.

The steamship North Star, with Gen. Banks and staff, arrived at New Orleans on the evening of the 14th.—The news transpired on the following day that General Butler had been superceded, and occasioned the utmost surprise among all classes, even those on the register lists, as enemies of the United States. All were sorry to part with an officer who at least had brought order and security to the city.

On the 16th Gens. Butler and Banks met at headquarters. General Butler welcomed Gen. Banks to the Department of the Gulf, and assured him that he would find here troops who would yield a cheerful obedience to his every order. General Banks in responding said the only pleasure he had in taking command was in obeying the order of the government of the United States.

The meeting was marked by the most cordial interchange of sentiment, that which marks the coming together of old friends. After the introductions, Gen. Banks and staff withdrew. Gen. Butler then addressed his officers, requesting each member to take pains to enlighten and assist his successor. He spoke in the most generous manner of Gen. Banks and staff.

On the 15th General Banks issued a general order, on assuming the command of the Department of the Gulf, and the State of Texas, and naming his staff officers, whose names are already known at the North. Another order directs the military and civil officers in the Department to report to him, and still another suspending the sales of property on account of the United States till further orders.

Gen. Butler's parting address to the troops bears date of the 15th inst.—He alludes in eloquent terms to their successes in the field, and in restoring order and quiet to New Orleans, to the feeding of starving wives and children of their enemies, and states that the expedition had cost the government less by four-fifths than any other. Speaking the word farewell was the only sorrowful thought he had, and he commends them to their new commander as worthy of his love.

Gen. Butler, accompanied by Colonel Shaffer, Col Turner, Maj. Strong, Maj. Bell, Capt. Davis, Capt. Kensel, and other members of his Staff, was to sail on the 22d, for New York.—Capt. Clark was to remain on duty at New Orleans.

Gen. Banks is pushing things with characteristic energy. Five thousand troops accompanied him, and had landed at Baton Rouge, and the remainder of the expedition would be sent forward as fast as it arrived. The weather at New Orleans is fine, and the troops are in good health.

On the 18th Gen. Banks issued a proclamation as follows:

PROCLAMATION.

Headquarters Department of the Gulf, New Orleans, Dec. 16.

In obedience to an order from the President, I assume command of the Department of the Gulf, to which is added, by his special order, the state of Texas. The duty with which I am charged, requires me to assist in their restoration to the Government of the United States. It is my desire to secure to the people of every class all privileges of possession and enjoyment which is consistent with the public safety or which is possible for a beneficient or just Government to confer. In execution of the high trust with which I am charged, I rely upon the co-operation and counsel of all loyal and well disposed people, and upon the manifest interest of those dependent upon the pursuits of peace as well as upon the support of the naval and land forces. My instructions require me to treat as enemies those who aid enemies; but I shall gladly regard as friends those who are friends. No restrictions will be placed upon the freedom of individuals, which are not imperatively demanded by considerations of public safety. But while their claims will be liberally considered, it is due also to them to state, that all rights of Government will be unflinchingly maintained. Respectful consideration and prompt reparation will be accorded all persons wronged in body or estate by those under my command.

The Government does not profit by the prolongation of civil contest, or private or public sufferings which attend it. Its fruits are not equally distributed in disloyal States. Desolation has its empire both on sea and land.—In the North, war is unabiding sorrow, but it is not yet a calamity. Its cities and towns are increasing their populations, wealth, and power. Refugees from the South alone compensate in a great part, for the terrible decimation of battle. The people of this department disposed to stake their fortunes and lives upon resistance to the government, may wisely reflect upon the immutable conditions which surround them. The Valley of the Mississippi is the chosen seat of population, product and power, on this continent.—In a few years twenty-five millions of people, unsurpassed in material, resources and capacity for war, will swarm upon its fertile rivers. Those who assume to set conditions upon this exodus to the Gulf, count on a power not given to man. The country washed by the waters of the Ohio, Missouri and Mississippi, can never be permanently severed. If one generation basely barters away its rights, immortal honors will rest upon another that reclaims them. Let it never be said that either the East and the West may be separated. Thirty days' distance from the markets of Europe may satisfy the wants of Louisiana and Arkansas, but it will not answer the demands of Illinois and Ohio. The Valley of Mississippi will have its delta upon the Atlantic; the physical force of the West will devouch upon its shores with a power as resistless as the torrents of its giant rivers. This country cannot be permanently divided; ceaseless wars may drain its blood and treasure; domestic tyrants or foreign foes may grasp the sceptre of its power; but its destiny will remain unchanged; *it will still be united;* God has ordained it.—What avails, then, the destruction of the best government ever devised by men, the self-regulating correcting Constitution of the United States?—People of the Southwest, why not accept conditions imposed by the imperious necessities of geographical configuration and commercial supremacy, and re-establish our ancient prosperity and renown? Why not become founders of States which, as entrepots and depots of your own central and upper valleys, may stand in affluence of their resources without a superior and in privileges of people without a peer among the nations of the earth.

[Signed] N. P. BANKS,
Major General Commanding.

The Lady's Book [illegible] flattering testimony to the character of ARTHUR'S HOME MAGAZINE:

"As we have often before said, it is without controversy, the best $2 Magazine published in the country; and this is the strong, outspoken testimony everywhere given by the press. We know of no periodical that so well deserves the praise bestowed. The editors never tire in their efforts to give each month a rich and varied literary repast to their readers. The work is kept fully up to the standard of their promises, is never dull, yet always full of instruction. We have often said, and repeat it now, that it should make a part of the reading of every household. We know of no better educator of the people, young and old. Of the editors we need not speak; their names are household words all over the country. In their books no periodical can fail to reach the highest point of excellence."

SCIENTIFIC AMERICAN.

The best Mechanical Paper in the World.

EIGHTEENTH YEAR

VOLUME VIII.—NEW SERIES.

A new volume of this popular Journal commences on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions which cannot be found in any other publication.

TO THE INVENTOR.

The SCIENTIFIC AMERICAN is indispensable to every Inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Germany, Great Britain and France; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & Co. have acted as Patent Solicitors for more than SEVENTEEN YEARS, in connection with the publication of the SCIENTIFIC AMERICAN, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

CHEMISTS, ARCHITECTS, MILLWRIGHTS AND FARMERS.

The SCIENTIFIC AMERICAN will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the SCIENTIFIC AMERICAN, which information they cannot possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in agricultural implements being illustrated in its columns.
